

We are looking for a

### **Research Staff member (PhD student)**

for participation in a national research project **on Mobile and Cooperative Camera Networks**. Candidates should have a strong interest in one or more of the following topics:

- Sensor networks and Internet of things
- Smart cameras and embedded systems development
- Computer vision and image processing

The Institute of Networked and Embedded Systems (NES) has almost 50 staff members and performs cutting edge research in emerging areas including sensor and camera networks, wireless communications and networking, signal processing and autonomous aerial robot systems. NES is hosting the Erasmus-Mundus Doctoral School on “Interactive and Cognitive Environments (ICE)” and participating in the Lakeside Labs research cluster on “Self-organizing Networked Systems”. With more than 40% of researcher from abroad, we offer a truly intercultural environment in beautiful southern Austria. Our business language is English.

The compensation for this position complies with Uni-KV B1 (part time contract of 30h/week with a minimum annual gross income of € 28,000). The employment contract may be expanded to 40h/week (full time) depending on the availability of funding and the candidate’s performance. A formal requirement for this position is the successful completion of a master program in information technology, computer science, electrical engineering or a related field of studies.

Alpen-Adria-Universität Klagenfurt aims to increase the number of female employees and therefore specifically invites qualified women to apply. Your application should include a letter of interest, curriculum vitae, academic certificates and courses, list of publications and contact details of two references. Please submit your application as a single PDF file to [pervasive@aau.at](mailto:pervasive@aau.at).

The application deadline is November 30, 2015.
